Born: December 22, 2001, in Mongolia

Marital Status: Single

RESUME

A dedicated and detail-oriented Data Analyst with a Bachelor's degree in Robotics and Artificial Intelligence. With experience in data analysis and optimization along with a strong technical background, I have successfully executed projects to improve processes and increase efficiency. My initial experiences include planning and optimizing one of Mongolia's largest alcohol companies. I aspire to further develop my skills in a dynamic and innovative environment and contribute to your company's success.

WORK EXPERIENCE

Data Analyst
(Datadeus), Mongolia
01.2024 – 09.2024

- Responsible for data analysis and process optimization at APU, Mongolia's largest alcohol producer, contributing to operational efficiency and strategic planning.
- Applied advanced analytical methods using Python to manipulate, analyze, and interpret complex datasets, leading to data-driven decisions that significantly improved business processes.
- Accessed, cleaned, and conducted preliminary analysis on data using Openpyxl and Pandas to ensure high data quality and provide easy access for stakeholders.
- Participated in developing dynamic visualizations and dashboards in Power BI, providing insightful and real-time data to support critical business functions.
- Contributed to the integration of Power Apps to optimize workflows and enhance the user experience on business intelligence platforms, increasing productivity and operational transparency.

EDUCATION

2020-2024
Mongolian University of Science and Technology, Ulaanbaatar
Bachelor in Robotics and Artificial Intelligence
